

Introduction

Certification of Compliance with Curtailment Order

The purpose of this survey is to ensure compliance with the curtailment order and its associate regulations. All water right holders in the Russian River watershed who received a curtailment order must complete this survey to comply with §879 of the Russian River Emergency Regulations.

At the end of this survey, you must certify that all the information entered into the form is true and correct to the best of your knowledge under penalty of perjury. Please keep this in mind while filling out the form.

To navigate this survey, use the "Next" and "Prev" buttons to move forward or backward. On the final page, instead of a "Next" button you will see a "Finish and Submit" button which will complete your survey. Your responses to each page will be saved when you continue to the next page.

If you encounter any issues, technical or otherwise, feel free to contact the State Water Resource Control Board at (phone no.) or (email address).

Acknowledgement and Certification

Select which of the following applies: *

- ☐ I certify that diversion under the water right identified has ceased.
- ☐ I am continuing to divert as provided for by section 878 or 878.1 and have/will submit a certification.
- ☐ I certify that continued use is under other water rights not subject to curtailment, specifically identifying those other rights, including the basis of right and quantity of diversion.

If you checked the second option "Continued use is under other water rights...", specify the water right and quantity diverted:

(5000 character max.)

If you are continuing to divert under section 878 or 878.1 select one of the following:

- ☐ Diversions continue only to the extent that they are non-consumptive uses for which a certification for continued diversion has been submitted per section 878.
- ☐ Diversions continue only to the extent that they are to provide for minimum human health and safety needs for which a certification has been submitted per section 878.1.

Are there any alternate sources of water being used? If so, please describe in the box below.

(5000 character max.)
